Front-end Developer with a background in the archival and historical sector for the last 10 years. I highly value customer service, patience, and a solution-finding mindset. I have completed a Front-End Web Development Bootcamp, which provides me with skills required to work in the industry, like knowledge of coding languages, and UX. I am extremely focused on details – my Master of Arts dissertation has been rewarded in competitions.

TECHNICAL SKILLS

JavaScript ES6+, CSS3, HTML5, GitHub, React, Node, jQuery, Bootstrap.
